Coldbuster is a 100% **Australian owned** and managed underfloor heating company with over **20 years of industry service**. Located locally at Cromer, we **supply and install throughout Australia**. Our challenge is not selling floor heating – we know we have **great product, great service and great pricing**.

Our challenge is to get to all the missed opportunities, i.e. all those who don't get to consider floor heating as the heating solution for their property. Despite that fact that just about everyone agrees that floor heating is the best heating solution, we often get comments from people what a shame they weren't given the option (and pricing) to least consider floor heating in the short time frame when it can be considered. **Once the floors have been installed, its simply too late!** General knowledge of under floor heating is very low in Australia (although common overseas), but by giving our customers the information needed to consider Coldbuster Floor Heating, they can **add value to their properties at a surprisingly reasonable cost** (as low as \$250 for a small bathroom).

Most people think floor heating is expensive as it is considered to be a luxury item, but as **it is not nearly as costly as people think**. Coldbuster Floor Heating is one of the best spends one can make on a property to increase value far more than its cost not only because it creates the most comfortable ambience of any heating choice at reasonable cost, but as it is considered a luxury item it automatically adds to the overall prestige of any property.

Our objective is to provide you with all the information needed to make a fully informed decision on whether or not to purchase floor heating on a room by room basis. Hence our offer to provide fully itemised quotes and heat plans. It is important to get the full options so you are able to see the cost of floor heating for each room, alongside an accompanying heat plan for each room.

In summary, Coldbuster offers an excellent investment (difference between luxury image and reasonable cost), for excellent products (again see the many benefits over alternative heating choices), by offering **free no obligation itemised quotes** (to ensure you have maximum options from which to choose) for products that can only be considered for a very limited time (must be before the floor goes down or it's simply too late!).

**Get a free, no obligation, fully itemised underfloor heating quotation and product recommendation for any new home or renovation projects simply by sending us your plans. This can be done by sending us an email at [sales@coldbuster.com.au](mailto:sales@coldbuster.com.au) OR filling in the free quotation form on our website OR calling us on 1800 85 75 65 OR dropping in for a chat!**

Branching Out Co. are a multi-faceted design & construction business with an in-house qualified Interior Designer.

Sarah can provide comprehensive interior and exterior design services - from simple layout changes through to larger scale renovations as well as sourcing furniture for both interior and exterior spaces. This allows us to provide a whole home solution, bringing the outdoors in and creating a cohesive environment both inside and out. Working to connect your inside and outside living and entertaining spaces.

Sarah will provide a customised quote for your project, services include:

**One-off Consult** - to talk about your home, what's working for you, what you want to improve, suggestions on simple layout changes, furniture/furnishing recommendations etc.

**Plan Drafting and Design Consult** - for larger projects Sarah can also provide a full design service, including a design consult with you on-site to discuss your needs, full CAD drafted plans, design mood boards, basic materials selection advice and ongoing support and consultation throughout the design and construction process. We can also provide an approval coordination service if required for your project.

**Kitchen and Bathroom design** - whether as stand-alone projects or as part of a larger renovation Sarah can help you to create the kitchen or bathroom of your dreams.

Furniture and furnishing sourcing - Sarah can help to recommend and source furniture, lighting, rugs, artwork and other decor pieces from a range of suppliers (including some trade-only suppliers) to complete your space or just to find that elusive perfect piece you have been searching for.

Sarah is an associate member of the Design Institute of Australia and has completed several qualifications in design:

- a nationally recognised Diploma in Interior Design and Decoration (MSF50213)
- a Diploma in Interior Design
- a Diploma in Interior Styling
- a Certificate IV in Design (also nationally recognised, CUA40715)

A six-time Dulux Colour Awards finalist and Dulux-accredited Colour Consultant for the Northern Beaches, Elisabeth offers professional colour & design advice to home owners, builders, architects, Strata (apartment blocks), offices and retail. Elisabeth works closely with her clients to create the desired atmosphere through the creative use of colour and design and can join your project at any stage of renovating or construction.

She offers expert advice on a range of interior design & decorating options including colour schemes, space planning, sourcing materials and furniture and can arrange photo shopping to show the before & after.

Specifying and sourcing finishes for your kitchen, bathrooms and laundry can all be arranged, the first focus is creating the right style and look what the client is after, then comes the right advice on colour, finishes, which benchtop, what colour to choose? Elisabeth can source bathroom tiles for her clients including taps and vanity finishes. For the rest of the house or building she can assist in selecting flooring (timber, engineered boards, carpet), window furnishing and furniture sourcing, saving the client time & money!

Elisabeth has qualification in colour and design, is passionate about colour and has experience in Europe and Australia. She founded European Colours + Interiors Pty Ltd in Australia in 2005, Elisabeth is also the Immediate Past President of the Design Institute of Australia (DIA) NSW, a Fellow and full member of the DIA and has been featured in a few design magazines like Grand Design Australia. Since 2008 she organizes colour & design events for the DIA for colour consultants, designers & architects, all about Colour & Design Forecasting where every year the newest Dulux colour range are presented.

**Every 'Ladies Renovating Collective' client will receive a complimentary Dulux Paint Redeem Voucher where you can redeem \$1 off per litre to a max of \$100. On top of this, you will receive discount on your paint purchases.**

As a finance broker for the past 20 years, I love helping clients make educated and informed decisions about their loans and how they structure their finances. Whether they are purchasing their first home, upgrading, wanting to build a property portfolio, or would simply like to pay down their mortgage sooner, helping our clients navigate this complex system is what we are all about.

We aim to build long term relationships and assist our clients to navigate their financial journey as they move through the various life stages. Your finance needs when you have a young growing family are very different to those as you approach retirement.

We specialise in construction and renovation finance and have assisted many clients in making their dreams of the perfect renovation become a reality.

From a multi -million dollar knock down & rebuild through to a simple granny flat addition we can tailor a finance package to suit your budget.

In some cases our creative solutions have found clients being able to renovate their homes and keep their mortgage repayments at a similar level to what they were paying prior to the renovation.

We are always happy to have a chat so give us a call early on in your renovation planning and we can give you some guidance around what will be possible for you.

Coldbuster is a 100% **Australian owned** and managed underfloor heating company with over **20 years of industry service**. Located locally at Cromer, we **supply and install throughout Australia**. Our challenge is not selling floor heating – we know we have **great product, great service and great pricing**.

Our challenge is to get to all the missed opportunities, i.e. all those who don't get to consider floor heating as the heating solution for their property. Despite that fact that just about everyone agrees that floor heating is the best heating solution, we often get comments from people what a shame they weren't given the option (and pricing) to least consider floor heating in the short time frame when it can be considered. **Once the floors have been installed, its simply too late!** General knowledge of under floor heating is very low in Australia (although common overseas), but by giving our customers the information needed to consider Coldbuster Floor Heating, they can **add value to their properties at a surprisingly reasonable cost** (as low as \$250 for a small bathroom).

Most people think floor heating is expensive as it is considered to be a luxury item, but as **it is not nearly as costly as people think**. Coldbuster Floor Heating is one of the best spends one can make on a property to increase value far more than its cost not only because it creates the most comfortable ambience of any heating choice at reasonable cost, but as it is considered a luxury item it automatically adds to the overall prestige of any property.

Our objective is to provide you with all the information needed to make a fully informed decision on whether or not to purchase floor heating on a room by room basis. Hence our offer to provide fully itemised quotes and heat plans. It is important to get the full options so you are able to see the cost of floor heating for each room, alongside an accompanying heat plan for each room.

In summary, Coldbuster offers an excellent investment (difference between luxury image and reasonable cost), for excellent products (again see the many benefits over alternative heating choices), by offering **free no obligation itemised quotes** (to ensure you have maximum options from which to choose) for products that can only be considered for a very limited time (must be before the floor goes down or it's simply too late!).

**Get a free, no obligation, fully itemised underfloor heating quotation and product recommendation for any new home or renovation projects simply by sending us your plans. This can be done by sending us an email at [sales@coldbuster.com.au](mailto:sales@coldbuster.com.au) OR filling in the free quotation form on our website OR calling us on 1800 85 75 65 OR dropping in for a chat!**

### SOLARPRO

---

**Phone:** 9453 1485

**Address:** Showroom, 9/252 Allambie Rd, Allambie Heights NSW 2100

**Website:** [www.solarpro.com.au](http://www.solarpro.com.au)

Solarpro is a well-established family business that operates out of the Northern Beaches of Sydney. We have been installing all types of solar technologies including, solar hot water, solar pool heating, solar car chargers, solar home batteries and of course solar power panels since 2009.

Solarpro is one of the oldest and most trusted solar companies on the Northern side of Sydney. We have been accepted by the Clean Energy Council as an "Approved Solar Retailer". This means we work to achieve excellence in the solar industry and comply with the Clean Energy Councils strict Code of Conduct. We are so confident in the quality of our installations we offer a **ten-year full solar PV system warranty**. Solarpro has installed over 4,000 solar systems on homes and businesses. Local councils such as Woollahra, Lane Cove, Ku-ring-gai and Pittwater are amongst those reaping the rewards of solar systems we have installed.

Solarpro specialises in generating maximum power using minimum roof space. We use high performance, quality products at affordable prices and seek innovative, value for money solutions to achieve energy independence for our customers.

In every solar installation we have focused on correct panel placement to maximise room for more panels. This was done in anticipation of the 'solar storage revolution' we find ourselves in today.

Solarpro will reduce your energy running costs. We can provide one quote giving Good, Better, Best options for these systems.

We are delighted to say, most of our business growth is via customer referrals and repeat business from local government, builders and architects.

We are a family business that started installing solar hot water systems in Sydney and has since diversified to being a 'one stop shop' for a holistic approach to gaining free electricity. We have experienced growth when many other solar companies have gone under and are sincerely grateful to our customers past, present and future.

Watermark Planning is a leading development consultancy which has been in operation for nearly 20 years. Sarah McNeilly, the company director, has over 25 years experience as a town planner, with extensive experience in statutory planning and assessment, and project management. Our consultants have worked in State government, local government and private consultancy throughout Sydney and much of NSW. We have vast experience with residential projects throughout Sydney and specialize in works on the northern beaches and north shore.

We can help you determine what is permissible on your site, work with your architect or designer to ensure your plans address all of the issues required in a Council assessment. Watermark Planning will write the Statement of Environmental Effects, which is the planning report to be lodged with your application. In this we provide an assessment of your development proposal and provide justification for any variations to the Council controls. We will let you know before you lodge your application if there are issues, so that these can be resolved before submission and that the assessment process is stress free!

**Find us on Instagram:** fabricupholsterers

A quality Upholsterer with over 30 years experience and a flair for design.

We are all about the customer and focus on assisting with your ideas and turning it into reality.

Fabric Upholsterers is based on Sydney's Northern Beaches, We work with interior designers and builders on commercial projects and with the public on their residential projects. We custom make bedheads, kids chairs, little lounges, custom outdoor seating areas, and covers for everything from barbecues to outdoor kitchens using stylish fabrics and designs. We cover and re-upholster all types of chairs and lounges and can custom make you a lounge. We also work with boat owners to reupholster their boats.

Through over 30 years' experience, our husband and wife team at Fabric Upholsterers bring together an understanding of furniture manufacturing, functionality and aesthetics, as well as our clients' desire for individuality, and a quest for exceptional craftsmanship, all at a competitive price. We are a team and family run business, with Chris still making every piece, ensuring total craftsmanship and quality. Michelle adds a little design inspiration to some of the custom made pieces, as well as handling the back office.

We listen to our clients' request carefully, taking clients through technique and fabric choices, bringing their ideas to life regardless of whether clients wish to complement or contrast the period of the furniture with their fabric choice.

Chris has a creative flair and likes to consider Custom Made Outdoor Seating Areas and Custom Made Bespoke Bedheads his speciality. As a talented and highly customer focused business, we are able to reupholster and bring back to life your favourite piece of furniture, assisting you in your choice of fabric.

Commercial upholstery is a big part of our business and we work closely with interior designers to create seating, wall coverings, and custom chairs for bars, restaurants, hotels and any other commercial establishment who is interested in using fabric to make a statement.

We gained a little more inspiration after having our daughter and designed a bespoke kids chair with a built in time capsule for order and little lounge to go with for your precious ones.

Chris also spent just over 10 years as a Marine Trimmer, specialising in marine upholstery. He has an impressive portfolio and most of all he really cares about the customer and is a genuine approachable person.

Xchange Air are leaders in the Australian Home Ventilation Industry.

Our service offering includes sub floor ventilation (mechanical sub floor ventilation which provides permanent solutions for damp, musty smells and mould issues), heat extraction (powered roof ventilators) and Condensation Control (our Positive Input Ventilation systems).

Dampness in a home can cause health problems, promotes insects attacking timber floors and causes odour problems. We are a family business who have been in the industry over 20 years.

Did you know we can produce up to 30 litres of moisture every day in our households from showers, washing, breathing and steam from our cooking? Moisture rises from ground level in many houses. Combine this with moisture already in the air – and you have a titanic recipe for mould growth and increased dust mite populations. Mould and mildew, harmful bacteria and viruses all contribute to long term health issues which can seriously impact on your quality of life. With 87% of our lives spent indoors, the need for a quality indoor environment is vital for your long term health and wellbeing.

The owners of Xchange Air are parents themselves of two young children and truly knows the importance of creating a healthy environment for children and families to live in.

We offer an obligation free home inspection, so call us on 9427 8800 to book in your assessment.

We are licensed designers and installers of sub floor and roof ventilation systems. (Lic No 182572C)

We have 20 years' experience in the domestic and semi commercial ventilation industry.

We have inspected over 100,000 homes in NSW.
