NSW Registered Architect No: 10030
NSW Licenced Contractor (Builder) No: 272736C

MILEHAM provides Architecture, Construction, Renovation, New Build, Project Management and Property Development services, specialising in providing an end-to-end customer and project experience.

Our integrated approach means you benefit from our experience and expertise during each stage of your project, from the critical initial design phase, throughout construction, right through to the final handover.

Whether doing a renovation or a knock down rebuild, having your project looked after from start to finish by the same team of professionals ensures knowledge is not lost between parties during the traditional project handover from designer to builder. This approach preserves value for your project, saving you time and money and maximising the successful outcome of your project.

MILEHAM's Principal and Founder, James Pilcher, is a Registered Architect and Licenced Builder. He brings a wealth of experience to your project with over 15 years in the industry.

James adopts a holistic approach with each project. By applying his construction practicality at the beginning of every design, clients benefit from James' understanding of how their aesthetic goals can be realised in the build phase, thereby reducing environmental, time and financial waste for all involved.

James draws his creative inspiration from timeless, classic and proportional design and has an appreciation for bold application of design and interiors. He is passionate about working with each of his client's unique design goals and challenges, taking into consideration their surrounding environment to ensure each design solution is unique, achievable and something to be truly proud of.

If you're thinking about a major renovation or knock down rebuild, contact MILEHAM for a complimentary, no obligation, 30 minute consultation with James, who will discuss your ideas and answer any questions you may have.

Rochelle Summerfield explores human relationships with the natural environment. Rochelle considers her works as visual love poems to nature, with a particular focus on our rivers, the lifeblood of all nature. She raises awareness and appreciation for the natural environment as essential to our health and well-being, and she celebrates the joy and sensations of connecting with nature as a part of our soul.

Rochelle Summerfield is a multidisciplinary artist incorporating drawing, paint, collage and digital media. Through a collagist multi-layered approach, she opens up capacities for transformation and connection with people for the care and appreciation of rivers and habitat. Rochelle was born and raised in the Northern Beaches of Sydney and whilst no longer living on the beaches, spends a large amount of time there as she has three sons and six grandchildren in the area. Victor and Chris Volpe are owners of Fox Wardrobes and Volpe Cabinet Making and her other son Paul is an accountant in the area.

Rochelle has a Master of Visual Arts by Research, 2006 and BVA Honours (First Class) 1998 at Southern Cross University, Lismore. Her work has been acquired by numerous public and private collections including the State Library of Victoria and the Print Council of Australia. In 2017, she completed a highly successful solo show and artist residency at Penrith Regional Gallery & Lewers Bequest, which saw her collaged female form float along the Nepean River as moving image. This work was then selected to be projected onto the Northern Rivers Conservatorium during the national 'Artstate' Lismore, Arts Events, 30 Nov- 3rd Dec.

Rochelle was awarded overall winner for the innovative photo-digital award at Moreton Bay Region Art Awards for her work 'Lost'. Exhibitions include the Windmill Trust Scholarship 20th Anniversary Retrospective and the nationally touring 'As Far As The Eye Can See', curated by Rilka Oakley of Blue Mountains Cultural Centre. More recently she had a successful solo show 'Crossroads' at the Western Plains Cultural Centre, 2019, exploring the Macquarie River and drought affected habitat.

Rochelle currently is in a group show 'Irreverent Matter' which she coordinated with Janet Parker-Smith at Hazelhurst Art Gallery & Arts Centre, Gymea, Sydney. It explores the dynamic interventions through collage in contemporary arts practice to search for new ways of being in the world. The second project is 'Hopeful Disruptions: Caring for Birrinba (Clarence River)' at Cowper Art Gallery & Studio, Northern NSW, supported by funding from NSW Arts Restart grant and Arts NR. This show is a cross-disciplinary and experimental exhibition of artworks exploring riverbank restoration and includes instigating planting and guerrilla weed eradication, demonstrating her continuing ongoing commitment to riparian landscapes.

If you would like to see Rochelle's work you can visit her website at https://rochellesummerfield.com or email her on artist@rochellesummerfield.com or call her on her mobile 042 101 9205. She provides a fitting service where she will deliver the artwork and install it in your space for an additional fee.

What's your dream kitchen or bathroom renovation?

There's no such thing as a standard kitchen or bathroom renovation. Things like size, budget and the quality of your finishes will all shape your renovation.

Collaroy Kitchen Centre specialises in designing and installing unique, custom-built kitchens and bathrooms for people who like to invest in their homes.

Our full builders license allows us to do more than simply install cabinetry and arrange a few trades. It means we can include structural modifications if you would like to expand the size of your kitchen or bathroom, create a seamless open plan living area or add a butler's pantry.

Our work includes outdoor kitchens, laundries and whole home, custom-built cabinetry.

Best of all, you will be working directly with our designers – not sales people. So from the beginning, you know you are working with people who understand what's possible for your home and how to bring your dreams to life.

Collaroy Kitchen Centre has created beautiful kitchens, bathrooms and cabinetry for over 25 years. We have won multiple Houzz Awards and enjoy Google Ratings in the high 4 Stars. All of this means you can have complete confidence in our skills and expertise.

But the best way to know if we are the right supplier for you, is to visit our website or our showroom at Shop 7-8, 1000 Pittwater Road, Collaroy.

The vision for Peninsula Homes is as strong today as it was when the company commenced in 2009 - to design and build beautiful, environmentally efficient and individual homes on Sydney's Northern Beaches, that take full advantage of the location, and, above all, feel great to live in.

Custom Homes
We understand the many elements in designing and building a new home. As knockdown rebuild specialists, we know that every home owner has individual expectations and requirements. Driven by individual focus, we are involved and committed to our clients every step of the way.

Designed to connect with the northern beaches lifestyle, we are highly skilled in coastal construction and embrace a varied design palette, including classic coastal, modern and contemporary. Passionate about sustainable house design, as a Master Builders Green Living Builder, carefully considered passive design principles are at the forefront of every one of our designs.

Relationships
Fostering strong relationships is at the heart of everything we do. We never take lightly the trust that clients place in us to design and build their dream home.
We offer a truly personal service from the very first meeting right through until the handover of your home. Your project is managed by the business owners, Paul and Steve, and you have direct contact with them throughout the build. You are not limited by site visits, in fact, we encourage you to visit the site, as this is where exchanges of ideas can elevate your home ever further. We would even go so far to say, that our clients' feeling so welcome is, time and again, what they valued most out of the build process.

And when it comes to our trades, we have decade-long relationships with our core suppliers, trades and consultants, who share the say eye-for-detail, professionalism and can-do attitude that is shared by the Peninsula Homes team.

In the Media
Putting our heart and soul into every home we build; we are always excited to showcase the work we do. Over the last 13 years, we have been extremely blessed to have won several awards including Master Builders Excellence in Housing Awards and the Northern Beaches Local Business Awards. We have also had the pleasure of being invited to showcase our homes on several TV shows, which has been an enormous thrill for the team.

Don't know where to start? Start a discussion with us. We are all so easy and approachable to talk to. Building a new home is one of the biggest decisions you will make in your life and might just be more affordable than you think, with our fixed price contract bringing certainty and peace of mind to your project. As a leading knockdown rebuild company on the Northern Beaches, the Peninsula Homes team listen to, and make sure your new home is everything it can be and everything you want it to be.

Hi, I am Horst Lueckl and together with my wife Melissa, we are the proud local owners of G.J. Gardner Homes Sydney North located in Brookvale. We pride ourselves on being the highest quality, flexible and experienced project home builders in Sydney North. We have lived on the beaches for over 30 years and we pride ourselves in living local, building local and employing local trades. We specialise in knockdown rebuild homes, which is extremely popular in the northern Beaches area, where we have never built the same home twice. Whether you are looking for custom built project home builders to help you bring your own plans to life or utilise one of our modern contemporary designs and make some variations to it, anything is possible when you choose to build with us, your trusted local home builders in the Northern Beaches.

The best part about building with us is our ability to be flexible whilst offering competitive fixed term contracts. Not many building companies can offer customised homes with fixed term contracts ensuring you will always know your home will be delivered on time and on budget. With over 30 years experience in new home building in The Northern suburbs, I have an exceptional insight into up and coming design trends in our local area. At G.J. Gardner Homes we have extensive selection of modern house plans that are perfect for the Northern Beaches and Suburbs of the Sydney area with contemporary lines, natural materials and emphasis on easy entertaining in an open plan context.

Coming from a family of European builders, delivering quality workmanship has been in my blood since I was a young man. I originally started my career in residential construction after University in Austria, which enabled me to develop a talent for building unique architectural homes.

I then moved to Sydney's Northern Beaches where I have been living and building ever since. For many years, I was carrying out high-end architectural work. Now, at the helm of G.J. Gardner Homes Sydney North, I can offer clients a brand new home on time, on budget and for a fraction of the price of most of the renovations that I used to do, making us the best project home builders in Sydney.

We love helping locals bring their dream of having a brand new home a reality. Many of our clients have older properties yet they do not wish to move so rethinking the old 'renovation' mindset and knocking the house down instead makes practical, economical, and creative sense.

We have many happy clients who we have built for so please contact us directly if you would like to make contact with them. Otherwise, you can read our reviews on https://www.productreview.com.au/listings/gj-gardner-homes-nsw-sydney-north-brookvale

Based in Sydney's North, **Icon Homes are the local Knock Down Rebuild specialists.** We pride ourselves on our flexibility, communication, and quality.

But what does that mean…

Flexibility – We will work with you to achieve your dream home the way you see it. We have an extensive range of designs for an array of sites but we know that this still isn't always going to be perfect for you. That's why we offer a full custom offering. That doesn't mean just moving a wall on one of our designs, it means a fully custom plan. Our new Design Studio takes this to the next level, it's a place where you can see your new home come to life. Take a look at some of our custom work here.

Communication – we will be upfront and honest with your from the start, there are no hidden costs or nasty surprises when you build with Icon. Our staff are there to help and guide you through the process and ensure it's an enjoyable one. Whether it's in the sales, pre-construction or construction part of your journey you will have a dedicated team member to work with who knows everything about your dream home. Don't just take our word for it, you can read some of what our past clients have had to say on our website.

Quality – we will only work with the best of the best. Whether that's our trades or suppliers, you can be assured that these are the people we have had working on our own homes and we won't compromise on quality for price.

Our suppliers are names you know and trust; Caesarstone, Harvey Norman, Reece, SMEG, Bristol, Brickworks, Wideline, Gainsborough, DiLorenzo, Carpet Choice. Not only will you have your dedicated Site Supervisor there daily to ensure the standard of quality, two of our Directors are builders and still love the building site more than the boardroom. They're often on site just to check in and get the boots dirty!

No builders build a home purely for awards, but it is nice for our whole team to be recognised for their hard work – we have now won the **Master Builders Association of NSW Display Home of the Year for two years running – The Avora 34 in Warriewood won for 2020 and The Gurangai 35 in Beacon Hill was the winner in 2019, both of these homes were also recognised as finalists in the National awards. The Avora 34 is also the first Net Zero Display Home in NSW and was a finalist in this year's National GreenSmart Awards.**

We are in the business of building homes not just houses and our team can't wait to help your family get into your dream home!

Directors Mickey Perret and Richard Locke brought Houspect to NSW in mid-2012. Since that time, Houspect NSW has grown from its initial beginnings in the Northern Beaches to now having 10 inspectors operating across Sydney including the Southern Highlands & South Coast, Blue Mountains, Central Coast & up through Newcastle to the Hunter regions.

We pride ourselves on being focused on customer service. By running a properly staffed office structure, we are able to support our customers and our inspectors in having staff readily available to help with bookings, report status, special needs and general questions.

Houspect NSW takes pride in pointing out our inspectors are all very experienced Certificate IV Registered Builders. Given the industry was deregulated in September 2009, we feel it's important to highlight our own self-imposed minimum level of skill and experience.

All our inspectors are well presented in Houspect uniform and have excellent diction and empathy for the emotions and needs that arise.

We can usually supply a completed report the following day but with special requests, we can at times turn a report around in just a few hours.

Inspection Services & Reports include:

- Construction / Renovation
- General Investigation
- Pre-Purchase & Vendor
- Expert Witness / NCAT
- Dilapidation

Whilst Houspect NSW does not carry out pest inspections, we have preferred suppliers who we can organise to perform this important inspection at generally the same time as when the building inspection is executed.

Specialising in self-employed home loans and first home buyers in the northern beaches of Sydney. I Love helping people buy homes! It's what I do best! I love the fact I get to help my clients dreams become a reality. My aim is to make it as simple as possible. My clients know I am there to answer the easy and complex questions no matter how silly you think they may be.

I know buying a house is in the top 5 most stressful things that can happen in your life and my aim is to decrease the stress. Especially for those who are self-employed and need a find-a-way kinda lady to make home ownership a reality. I find working with the self-employed extremely rewarding.

Together we work out what is doable and affordable, get the deposit ready, work through any details with the accountant and sort out any other complexities that come with being a self-employed entrepreneur who wants to buy or refinance a home.

For first time home buyers, it is easy for me to be transparent about the deposit, the buying process, associated costs and the different financial options available based upon your financial situation. I walk you through every step of the way.

With over 15 years of financial experience and a lifetime living on the Northern Beaches, I love helping the Northern Beaches community make their home ownership dreams come true.

As a finance broker for the past 20 years, I love helping clients make educated and informed decisions about their loans and how they structure their finances. Whether they are purchasing their first home, upgrading, wanting to build a property portfolio, or would simply like to pay down their mortgage sooner, helping our clients navigate this complex system is what we are all about.

We aim to build long term relationships and assist our clients to navigate their financial journey as they move through the various life stages. Your finance needs when you have a young growing family are very different to those as you approach retirement.

We specialise in construction and renovation finance and have assisted many clients in making their dreams of the perfect renovation become a reality.

From a multi -million dollar knock down & rebuild through to a simple granny flat addition we can tailor a finance package to suit your budget.

In some cases our creative solutions have found clients being able to renovate their homes and keep their mortgage repayments at a similar level to what they were paying prior to the renovation.

We are always happy to have a chat so give us a call early on in your renovation planning and we can give you some guidance around what will be possible for you.

SERVICING THE NORTHERN BEACHES | OUR MISSION
Our commitment to every client is to add soul and personality to each space. We want you to walk into a home, not just a house, because after all home isn't a place; it's a feeling.

We do this by collaborating with clients to understand their needs, dreams, desires, and goals. We love doing what we do; bringing properties to life, building relationships, playing cupid between people and their perfect home.

We are devoted to providing property styling solutions that maximise a property's appeal and ultimately their value – because we know the right presentation delivers the right result!

La Villa Showroom

La Villa is a design emporium created by Rosie Zofrea as an extension of her property styling business, Inside Out Real Estate Styling. The space itself is an expression of Rosie's passion for interiors and her personal style, with a Mediterranean influence.

The general public and commercial clients alike can visit La Villa to shop for homewares, lighting, soft furnishings and furniture from curated collections.

At Sydney Showerseal, we're specialists in waterproofing leaking showers and balconies without removing your tiles. We deliver the most advanced reseal available, using high quality Australian made materials and are a preferred installer for Remedial Membranes.

With over 20 years in the tiling trade, Chris O'Brien has renovated enough bathrooms to immediately identify where the problems might be – even if the solution is not one we can provide. With Sydney Showerseal, you'll always get an honest assessment and an up-front quotation.

We understand that different types of tiles have different characteristics, behave differently in particular conditions and can require specialist treatment. Understanding the high cost and upheaval of re-tiling, we've channelled our expertise into packaging a fast, effective and economical solution for leaky showers. We deliver our service with consistent and uncompromising quality and attention to detail.

We're proud of our solid reputation for bathroom expertise and our personal and reliable service.

SOLARPRO

Phone: 9453 1485
Address: Showroom, 9/252 Allambie Rd, Allambie Heights NSW 2100
Website: www.solarpro.com.au

Solarpro is a well-established family business that operates out of the Northern Beaches of Sydney. We have been installing all types of solar technologies including, solar hot water, solar pool heating, solar car chargers, solar home batteries and of course solar power panels since 2009.

Solarpro is one of the oldest and most trusted solar companies on the Northern side of Sydney. We have been accepted by the Clean Energy Council as an "Approved Solar Retailer". This means we work to achieve excellence in the solar industry and comply with the Clean Energy Councils strict Code of Conduct. We are so confident in the quality of our installations we offer a **ten-year full solar PV system warranty**. Solarpro has installed over 4,000 solar systems on homes and businesses. Local councils such as Woollahra, Lane Cove, Ku-ring-gai and Pittwater are amongst those reaping the rewards of solar systems we have installed.

Solarpro specialises in generating maximum power using minimum roof space. We use high performance, quality products at affordable prices and seek innovative, value for money solutions to achieve energy independence for our customers.

In every solar installation we have focused on correct panel placement to maximise room for more panels. This was done in anticipation of the 'solar storage revolution' we find ourselves in today.

Solarpro will reduce your energy running costs. We can provide one quote giving Good, Better, Best options for these systems.

We are delighted to say, most of our business growth is via customer referrals and repeat business from local government, builders and architects.

We are a family business that started installing solar hot water systems in Sydney and has since diversified to being a 'one stop shop' for a holistic approach to gaining free electricity. We have experienced growth when many other solar companies have gone under and are sincerely grateful to our customers past, present and future.

Chris has a creative flair and likes to consider Custom Made Outdoor Seating Areas and Custom Made Bespoke Bedheads his speciality. As a talented and highly customer focused business, we are able to reupholster and bring back to life your favourite piece of furniture, assisting you in your choice of fabric.

Commercial upholstery is a big part of our business and we work closely with interior designers to create seating, wall coverings, and custom chairs for bars, restaurants, hotels and any other commercial establishment who is interested in using fabric to make a statement.

We gained a little more inspiration after having our daughter and designed a bespoke kids chair with a built in time capsule for order and little lounge to go with for your precious ones.

Chris also spent just over 10 years as a Marine Trimmer, specialising in marine upholstery. He has an impressive portfolio and most of all he really cares about the customer and is a genuine approachable person.

Licence No: 182572C

Xchange Air are leaders in the Australian Home Ventilation Industry.

Our service offering includes sub floor ventilation (mechanical sub floor ventilation which provides permanent solutions for damp, musty smells and mould issues), heat extraction (powered roof ventilators) and Condensation Control (our Positive Input Ventilation systems).

Dampness in a home can cause health problems, promotes insects attacking timber floors and causes odour problems. We are a family business who have been in the industry over 20 years.

Did you know we can produce up to 30 litres of moisture every day in our households from showers, washing, breathing and steam from our cooking? Moisture rises from ground level in many houses. Combine this with moisture already in the air – and you have a titanic recipe for mould growth and increased dust mite populations. Mould and mildew, harmful bacteria and viruses all contribute to long term health issues which can seriously impact on your quality of life. With 87% of our lives spent indoors, the need for a quality indoor environment is vital for your long term health and wellbeing.

The owners of Xchange Air are parents themselves of two young children and truly knows the importance of creating a healthy environment for children and families to live in.

We offer an obligation free home inspection, so call us on 9427 8800 to book in your assessment.

We are licensed designers and installers of sub floor and roof ventilation systems. (Lic No 182572C)

We have 20 years' experience in the domestic and semi commercial ventilation industry.

We have inspected over 100,000 homes in NSW.

MANLY WINDOWS

Phone: 9907 2644
Address: 17 Ethel Avenue, Brookvale, NSW 2100
Website: https://manlywindows.com.au/

Manly Windows is a member of the Australian Window Association (AWA) and is a family business based on the Northern Beaches of Sydney.

Manufacturing is carried out locally at our Brookvale factory / showroom. We have a team of skilled tradesmen with years of experience in designing and installing quality windows and doors. All our installers are employees, we do not use subcontractors. We custom-build to your specifications and will discuss your options to reflect the unique qualities of your property.

Founded in 1999 by local builder Mark Spiteri, Mark has lived on the Northern Beaches all his life and it was logical that he would base his work skills where he could serve his local community. With more than 20 years' experience in the building industry, Mark and Manly Windows have built up a strong reputation for providing quality finished products combined with an original approach to design. Our flexible attitude and building experience have allowed Manly Windows to form strong relationships within the building industry, making us the first choice of many local architects, designers and builders.

Our friendly team is approachable and professional making your renovating and building experience smooth and hassle-free, whether you just need a quote or you're in the full swing of a building or renovation job.

A family owned Australian business since 1971, Wideline have been bringing light, vision, wellbeing and wonder into Australian homes for 50 years. In that time our world has changed so much, but our values and passion for innovation have not.

Formerly trading as Vision 3 Windows & Doors, Omar Rutherford and the team joined forces with Wideline who are the largest independently owned window and door manufacturer in the state and have a reputation for producing architectural products of the highest standard.

Selecting the right windows and doors can be daunting, we offer expert advice to ensure you will get the best style and performance doors and windows for your lifestyle at the best value for money. We invite clients (and especially Ladies Renovating Collective members) to drop in and discover the many options and solutions on display at our stylish Brookvale showroom.
